Counting Down to Finals

Only 5 weeks left before the end of the semester

Brandon Skero

We're approaching the halfway point in the year and finals are just around the corner. Now is the time to take advantage of some extra time to ace the finals.

Tutorials are being offered every Tuesday and Thursday after school from 2:45 to 4:50 for students to do the work they need help in.

"It is for kids in the four core subject areas that need the help," Associate Principal Nancy Kahn said.

If you're struggling in any subject it is a perfect time to figure things out as finals approach so that you can make the best grade possible and it's available to everyone.

"You have to bring your assign-

ments and be there no later than 3:00," Kahn said.

In a normal classroom there can be up to thirty students with just one teacher and it can make it hard for a student to focus and understand everything. With more time and less students in a classroom, kids will have the chance to study and get all the help they need.

"I think it's a good opportunity for when kids need to study for a test or work on something," Kahn said.

Giving Thanks for the Break

Danya Salinas

Since Halloween is officially over, students are now looking forward to the Thanksgiving holiday that is from November 24 through the 30. When Thanksgiving is mentioned, the first thought that pops into someone's mind is food. However, not everyone has their mind on the feast. Spending time with family and close friends is also a very popular trend.

"When I hear Thanksgiving, giving grace and spending quality time with

my loved ones is what I imagine," senior Gissela Ruiz said.

This time of year is special and very helpful for students who have struggled throughout the year. With the week off, students will have time to recharge and prepare their minds for the upcoming final exams.

"It will help me to have time to rejuvenate my mind so i am not overwhelmed," freshmen Alex Wood said.

There are many different ways of cel-

ebrating Thanksgiving but the food is a very important factor, including the desserts and family gatherings, that bring peace and love to one's soul.

"I think it would give me time to study, but can be negative as well because food will distract me," junior Sarah Mendoza said.

There are ONLY 18 more days until thanksgiving break!

Open Doors

Movie Review - **Interstellar**

Breann McCord

With life on Earth as we know it coming to an end, a team of explorers take on one of the most important missions in history, to travel beyond our galaxy to see if mankind has a future among the stars.

Matthew McConaughey plays the main character, Cooper who tries to find a hospitable planet for humans while earth undergoes chaos and tries to save his family and millions of others.

With only one option to save

the human race, they explore the unknown depths of a worm hole in hopes of finding a home so the human legacy may live on.

Interstellar leaves you on the edge of your seat. This movie is filled with action and adventure as you join these courageous explorers in saving mankind and its existence.

Our world hangs in the balance! Will they find a planet we may survive on or will all be lost?

On the Road to College

Adan Sanchez

It's that time of the year when seniors must decide whether they are going to join the workforce or go to college.

Colton Finley was accepted to Sam Houston State University as is optimistically looking forward to the experience.

"It wasn't my first choice but it's still close to home and they have a great athletic program," Colton said.

Most universities have already reached their deadlines but it's not too late to apply to others. When it comes to community colleges like Lone Star, Tyler jr. College, Navarro, or Houston Community College they are open admission schools.

"Open admission means that colleges do not restrict who gets in, as long as you have high school diploma you are able to get in," College and Career Counselor Diane Hernandez said.

Seniors, graduation is just around the corner. Take some time to think about your life!

Teacher of the Month - Dana Wild

Anna McDougald

Dana Wild is the teacher of the month and a BRAND new teacher.

Here e a few things about her -

How do you like Caney Creek?
I like the atmosphere. Its like a big school but has a small school feel.

What inspired you to teach?
I had a profession for 17 years and then I wanted to do something that made a difference.

How long have you taught?
This is my first year teaching.

What profession did you have last?
I was an environmental manager for an industrial facility.

How would you describe your classes?
My classes all have hardworking students who are doing a good job keeping up on the fast pace of biology.

We wish Mrs. Wild a great year. Make sure you stop by room 2118 to welcome Ms. Wild to Caney Creek.
